Conditions of participation for Care Concept's "Welcome to Austria" scholarship

Care Concept AG has decided to award the "Welcome to Austria" scholarship for the 2024 winter semester (October 1, 2024 to March 31, 2025). Care Concept AG intends to award the scholarship according to the following conditions of participation. By taking part in the competition, the participant declares his/her/their agreement with all the provisions contained in the following "Scholarship" conditions of participation.

1. Subject matter of the scholarship
   For the 2024 winter semester, Care Concept AG will award a partial scholarship for the stay of a foreign student in Austria for up to 6 months as part of their studies. The stay shall be financially supported with 300 EUR per month.

2. Requirements of participation
   Participants are students between 18 and 35 years of age from the second semester onwards who have neither held permanent residency in Austria for at least two years nor are Austrian citizens. Furthermore, we expect the winner to be willing to provide a monthly personal report (vlog) in German or English about his/her/their life and studies in Austria during the scholarship period. Six reports are to be produced as a short video (vlog) of 1 minute in length in the appropriate format for Instagram reels and TikTok videos (1080px x 1920px), on which the scholarship holder can be seen for at least 30 seconds. The reports should each include a photo that goes with the video for the Instagram/TikTok feed as a cover picture, on which the scholarship holder should be seen. In addition, the scholarship holder agrees to shoot or create a final video of the last 6 months at the end of the scholarship period (1 minute long). Employees of Care Concept AG and their relatives are not eligible to receive a scholarship.

3. Application procedure

   The application process takes place via social media (Instagram). Applicants need to do the following:

   b) Applicants tag two friends under the pinned post that announces the Care Concept AG scholarship.

   d) The applicant's application video will be tagged with the official hashtag #CCAGscholarship.

   e) The official Instagram account of Care Concept AG will be tagged on the applicant's application video.

After the application deadline at the latest, the selected applicants will receive a message on social media from the official Instagram account of Care Concept AG. 4. Selection process
After viewing the application videos on Instagram, a pre-selection will be made by a selection committee of Care Concept AG. The winners will be selected from the pre-selected candidates after reviewing the application documents described above. The specific selection criteria will be sent to the applicants upon express request.

5. Exclusion from participation
If necessary, Care Concept AG reserves the right not to admit applicants to the application process or to exclude applicants from being awarded the scholarship in the event of incorrect information, deliberate manipulation or due to other important reasons (e.g. extremist, racist or pornographic content).

6. Liability
Furthermore, Care Concept AG shall not be liable for damages which may arise as a result of errors, delays or interruptions in transmission, malfunctions in the technical equipment or services, incorrect content, loss or deletion of data, viruses or damages which may arise in any other way during participation in the application process, unless such damages are caused by Care Concept AG (its organs, employees or vicarious agents) with intent or gross negligence or as a result of a breach of cardinal obligations. Liability for damages resulting from loss of life, physical injury and harm to health shall remain unaffected.

7. Severability clause

Should any provision of this agreement or any provision incorporated into this agreement in the future be or become invalid or unenforceable, in whole or in part, or later lose its validity or enforceability, the validity of the remaining provisions shall not be affected thereby. The same shall apply if it turns out that the agreement contains a loophole. In the event of an invalid provision, the contracting parties shall be obliged to negotiate an effective and reasonable substitute provision that comes closest in a permissible manner to the commercial purpose of the invalid provision. The same shall apply in the event of the existence of a contractual gap.
